

SIPP OJT MONITOR

System User Manual

Document Version 1.0

Classification: Internal Use Only

Developer : Jordan S. Resueño

Audience: Coordinators and Advisors

1. Introduction

The SIPP OJT Monitor is a web-based information system designed to support the coordination, tracking, and documentation of On-the-Job Training (OJT) placements for student interns. The system provides a centralized platform for managing student records, host training establishments (HTEs), memoranda of agreement (MOA), requirement compliance, and endorsement letters across academic periods.

1.1 Purpose of This Document

This manual provides step-by-step operational guidance for all system users. It covers every module of the SIPP OJT Monitor, including navigation, data entry, file management, and administrative functions. Readers should refer to the relevant section corresponding to their assigned user role.

1.2 User Roles and Access Levels

The system recognizes two distinct user roles, each with a defined scope of access:

Superadmin (Coordinator)	Full system access. Manages all schools, user accounts, HTE verification, endorsement letter uploads, and system-wide statistics.
Advisor	Restricted access scoped to their department. Manages their own students and HTEs, uploads MOA files, and views department-level statistics.

1.3 System Requirements

The SIPP OJT Monitor is a browser-based application. No local installation is required. The following are recommended for optimal performance:

- A modern web browser (Google Chrome, Mozilla Firefox, or Microsoft Edge — latest version recommended).
- A stable internet connection.
- Screen resolution of 1280 × 720 or higher.

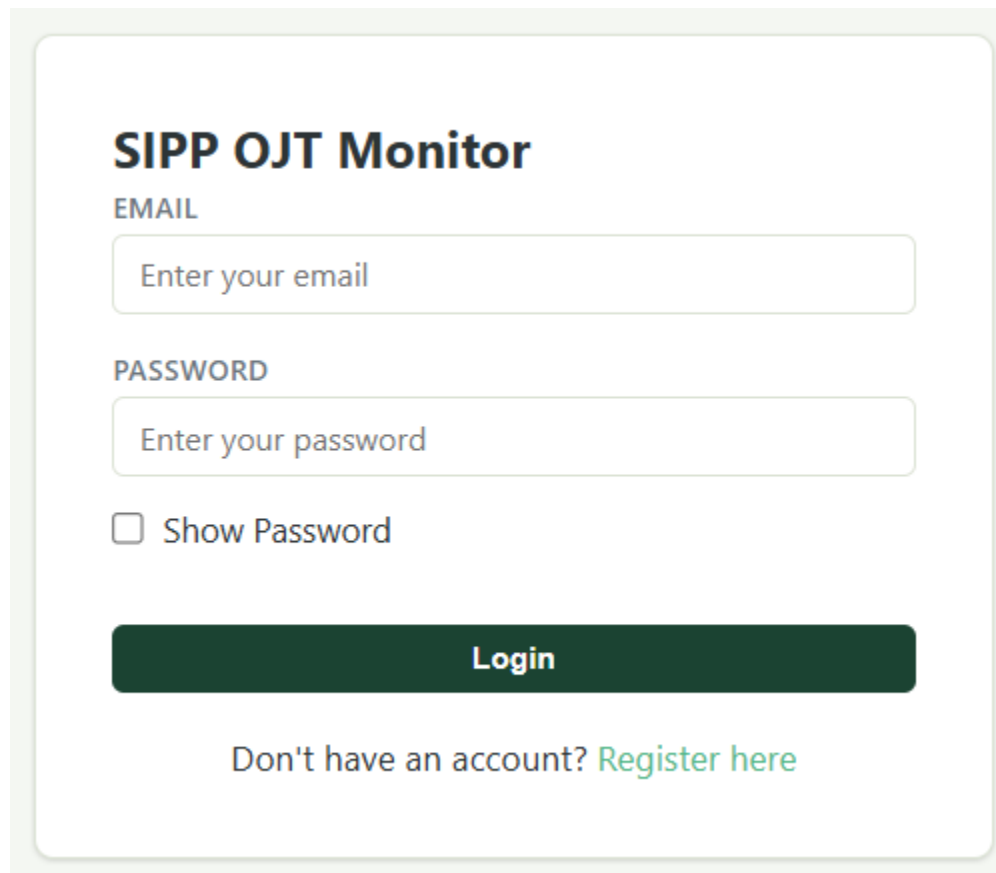

2. Getting Started

2.1 Logging In

To access the system, navigate to the application URL provided by your institution's IT administrator and perform the following steps:

1. Enter your registered email address in the Email field.
2. Enter your password in the Password field.
3. Click the Login button to proceed.

NOTE If your advisor account has not yet been approved by the superadmin, a notification will be displayed upon login. Contact your coordinator to request account activation.

The screenshot shows the login interface for the SIPP OJT Monitor. It features a title 'SIPP OJT Monitor' in bold. Below the title are two input fields: 'EMAIL' and 'PASSWORD'. The 'EMAIL' field has a placeholder text 'Enter your email'. The 'PASSWORD' field has a placeholder text 'Enter your password'. Below the password field is a checkbox labeled 'Show Password'. At the bottom of the form is a dark green 'Login' button. Below the button is a link that says 'Don't have an account? Register here'.

Already have an account? [Login](#)

2.2 Session Management

For security purposes, user sessions expire automatically after 30 minutes of inactivity. Upon session expiry, you will be redirected to the login page. All unsaved changes will be lost. It is recommended to save your work periodically.

2.3 Password Confirmation Prompts

Certain sensitive operations, including deleting records, restoring database backups, and resetting user passwords, require password re-entry via a confirmation modal. This safeguard prevents accidental data modifications. Always ensure you are entering your own current password when prompted.

3. Main Dashboard — index.php

The Main Dashboard serves as the primary entry point after login. It presents a consolidated view of all active student internship batches, organized hierarchically by advisor, host training establishment (HTE), and academic period.

3RCDG CDC (X)

2025-2026 | 2nd Semester Pending View Edit

STUDENT NAME	SCHOOL	PROGRAM	INTERNSHIP PERIOD	RF	MC	PT	PC	TA	SIPP
Garcia, Mario Jr. F.	School of Industrial Technology	BIT - AET	—	✓	✓	✓	✓	✓	✓
Rubia, Ian Kenneth	School of Industrial Technology	BIT - AET	—	✓	✓	✓	✓	✓	✓
Ursal, Mary-an P.	School of Industrial Technology	BIT - AET	—	✓	✓	✓	✓	✓	✓

3.1 Dashboard Layout

Records are grouped as follows: Advisor → HTE → Academic Period (Semester and Year). Within each academic period group, a table lists all associated students along with their requirement compliance status, indicated by check marks (✓) for fulfilled requirements and crosses (X) for missing ones.

3.2 Filter Bar

The filter bar at the top of the dashboard allows users to narrow down the displayed records. The following filter parameters are available:

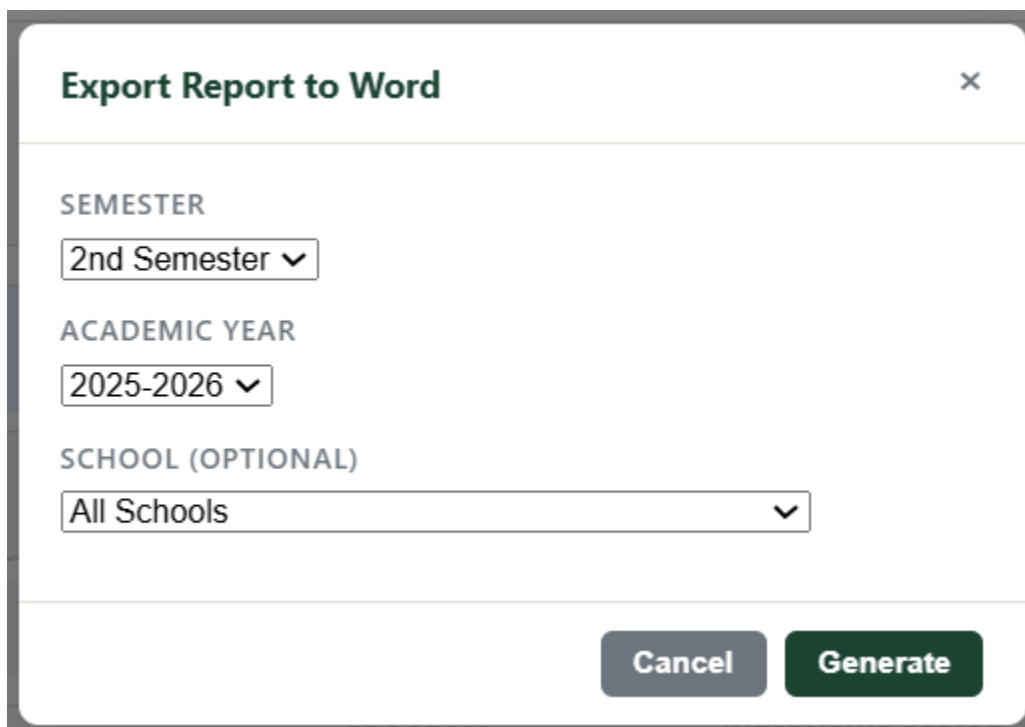

Filter Field	Description
HTE	Filter records by a specific host training establishment.
Semester	Filter by the semester (e.g., First, Second, Summer).
Academic Year	Filter by the academic year of the internship batch.
School	Filter by school or department (Superadmin only).

Filter Field	Description
Program	Filter by the academic program associated with the students.
Search	Free-text search by student name or HTE name.

NOTE The School filter is not available to advisors. Their view is automatically scoped to their assigned department.

3.3 Exporting Reports

The Export Report button opens a modal dialog. Select the target semester, academic year, and optionally a school, then click Download to generate a formatted Word document. The exported file groups data by school and is suitable for submission or archiving.

The image shows a modal dialog titled "Export Report to Word" with a close button (X) in the top right corner. The dialog contains three dropdown menus: "SEMESTER" with "2nd Semester" selected, "ACADEMIC YEAR" with "2025-2026" selected, and "SCHOOL (OPTIONAL)" with "All Schools" selected. At the bottom right, there are two buttons: "Cancel" and "Generate".

3.4 Batch Actions

Each academic period heading provides two action links:

- View Batch — Opens a read-only summary of the batch (see Section 5).
- Edit — Opens the editable student list for the selected batch (see Section 4.2).

4. Student Management

4.1 Adding Students — add_student.php

This module allows authorized users to create a new batch of students assigned to a specific host training establishment.

+ Batch Add Students

HOST TRAINING ESTABLISHMENT
Click or type to search HTE...

Search and select the establishment where these students will be deployed.

BATCH SETTINGS — APPLIES TO ALL STUDENTS

SCHOOL: — Select School — PROGRAM: — Select Program — ACADEMIC YEAR: 2025-2026 SEMESTER: 2nd Semester ADVISOR: Annie R. Capin (School of Industrial Te

Batch Internship Dates: dd/mm/yyyy dd/mm/yyyy **Apply to All** Still editable per student.

+ Add Student

STUDENT NAME	GENDER	NOTES	INTERNSHIP START	INTERNSHIP END	RF	MC	PT	PC	TA	SIPP
Full name	Male	Optional...	dd/mm/yyyy	dd/mm/yyyy	☐	☐	☐	☐	☐	☐

Save All Students **Cancel** 1 student(s)

4.1.1 Accessing the Form

Click the + Add Student button on the Main Dashboard to open the student addition form.

4.1.2 Selecting the Host Training Establishment

Begin typing the name of the HTE in the search field. A dropdown list will display matching results. Click the correct entry to confirm the selection.

4.1.3 Configuring Batch Settings

Complete the batch configuration fields at the top of the form before adding student rows:

- School — Automatically set for advisors. Superadmins may select any registered school.
- Program — Select the academic program. The available options update dynamically based on the selected school.
- Academic Year and Semester — Default to the current academic period. These may be changed as needed.

- Advisor (Superadmin only) — Assign the batch to a specific advisor. The list is filtered by the selected school.
- Internship Dates (Optional) — Set a shared start and end date for all student rows by using the Apply to All bar.

4.1.4 Adding Student Rows

Click the + Add Student button within the form to append a new student row. For each row, fill in the following fields:

- Full Name
- Gender
- Notes (Optional)
- Individual Internship Dates (Optional — overrides the batch-level date if set)

NOTE Superadmins may also tick requirement checkboxes (e.g., RF, MC) directly from this form if the corresponding physical documents are already on hand.

4.1.5 Saving the Batch

Click Save All Students to commit the batch. The system will create the batch record and redirect you to the Main Dashboard upon success.

4.2 Editing Students — [edit_student.php](#)

This module allows modification of existing student records within a batch, including personal details, requirement statuses, and internship dates.

4.2.1 Accessing the Edit View

On the Main Dashboard, click the Edit (✎) link next to the target academic period heading.

4.2.2 Available Fields by Role

Field	Advisor	Superadmin
Name, Gender, Program	Editable	Editable
Internship Dates	Editable	Editable
Requirement Checkboxes	Not visible (preserved)	Editable
HTE Assignment	Not editable	Editable

4.2.3 Batch Internship Dates (Advisors)

Advisors may use the Batch Internship Dates bar to apply a uniform start and end date to all rows simultaneously. Individual row dates can still be adjusted afterwards.

4.2.4 Deleting a Student

Click the ✕ button in the Del column of the target student row. A password confirmation modal will appear. Enter your password to confirm the deletion. This action is irreversible.

4.2.5 Saving Changes

Click Save All Changes to apply all pending modifications to the database.

5. Viewing a Batch — view_batch.php

The Batch View provides a read-only summary of a selected internship batch, including student records and endorsement letter status.

Back to Index Edit Batch

5.1 Accessing the Batch View

On the Main Dashboard, click the View (👁) link next to the target academic period. Alternatively, the Missing Requirements page provides View Batch links directly from HTE cards.

5.2 Displayed Information

- HTE name and associated academic period (semester and year).
- Batch ID — a unique system identifier for the batch.
- Endorsement letter status: Uploaded (with a View/Download link) or Pending.
- A complete table of students and their per-requirement compliance status.

5.3 Uploading an Endorsement Letter (Superadmin Only)

An endorsement letter upload form is displayed at the top of the page for superadmins. To upload or replace a letter, select the file and submit the form. Once uploaded, all advisors can view the status and access the file from their own dashboards.

6. Missing Requirements — missing_requirements.php

This module provides a consolidated view of requirement compliance across all HTEs for a given academic period. It is designed to help coordinators and advisors quickly identify and follow up on incomplete student documentation.

The screenshot shows the 'Missing Requirements Report' interface. At the top, there's a navigation bar with 'Students', 'HTEs', 'Statistics', 'Missing Reqs' (active), 'User Management', and 'Logout'. Below the navigation bar, a header bar displays 'Missing Requirements Report' and 'Total students missing at least one requirement: 531'. There are 'Expand All' and 'Collapse All' buttons. Below this, there are filters for '2nd Semester', '2025-2026', 'All Schools', and 'All Programs'. A search bar labeled 'Search name...' is present, along with 'Filter' and 'Clear' buttons. The main content area is titled 'HTEs with Incomplete MOA Documentation (3)'. It lists three HTEs: 'LGU Maria Aurora (HRMO)', 'LGU Maria Aurora (Municipal Civil Registrar)', and 'LGU Dilasag (Municipal Tourism Office)'. Each HTE entry shows its advisor, a status bar with 'Unverified', 'No File', and 'Expired/Not Started' indicators, and an 'Edit HTE' button.

The screenshot shows the 'Christopher Marmol (School of Information Technology)' profile page. It features a header with the name and a collapse icon. Below the header, there's a section titled 'Incomplete' with a collapse icon. Under this section, there's a 'Letter Uploaded (2)' status. Two columns of requirements are displayed. The left column is for 'ASCOT - Extension and Rur...' and the right column is for 'ASCOT - HRMO'. Each column has a 'Letter Uploaded' status. The requirements are listed with checkboxes: 'Effective Notarized MOA with HTE', 'Registration Form (RF)', 'Medical Certificate (MC) & Psychological Test (PT)', 'Notarized Training Agreement (TA)', 'Notarized Parent Consent (PC)', and 'Signed SIPP Plan (SIPP)'. The 'Signed SIPP Plan (SIPP)' requirement is marked as incomplete (X) in both columns. Below the requirements, there are 'View Batch' buttons. At the bottom, there's a 'Signed SIPP Plan (SIPP)' section with names: Bolante, Glessie Mae N.; Deocariza, John Christian C.; Valenzuela, Alexander F. for the left column, and Delos Satos, Carlos John T.; Norberte, Jomar Q. for the right column.

6.1 Accessing the Page

Navigate to Missing Requirements from the main navigation bar. The page defaults to the current semester and academic year.

6.2 Filters

Use the filter controls at the top of the page to select a different semester or academic year. A search box allows free-text filtering by student name or HTE name.

6.3 HTE Cards

Each HTE is represented by a card displaying the following information:

- HTE name, with a View Batch link if a batch record exists.
- A checklist of all six tracked requirements. A green check (✓) indicates all students in the HTE have fulfilled that requirement; a red cross (X) indicates at least one student is missing it.
- An itemized list of students missing each specific requirement, including any associated notes.

6.4 Card Groupings

HTE cards are categorized into two primary sections:

- Complete — All requirements for all students in the HTE are fulfilled.
- Incomplete — One or more requirements are outstanding.

Within each section, cards are further separated by endorsement letter status:

- Letter Uploaded — An endorsement letter has been uploaded for the batch.
- Pending Letter — No endorsement letter has been uploaded yet.

6.5 View Controls

Superadmins may use the Expand All and Collapse All buttons to toggle all advisor sections. Advisors see only their own HTE sections, which can be individually expanded or collapsed.

7. Statistics — stats.php

The Statistics page provides a quantitative overview of internship placement data for a selected academic period.

7.1 Default Period

The page defaults to the current semester and academic year, computed based on the Philippine school calendar. The period can be changed using the filter controls.

7.2 Available Metrics

The following data cards are displayed:

- Total enrolled students and count of students with missing SIPP.
- Total HTEs with active placements and count of HTEs with an active MOA.
- Gender distribution of all students.
- Student count by HTE type (Local, Private, Public).
- MOA status breakdown.
- Requirement fulfillment counts per requirement type.
- Program-level student distribution.
- Student distribution across HTEs (local HTEs are aggregated into a single entry).

7.3 Exporting Statistics

Two export options are provided:

- Export Charts — Opens a print-optimized page containing bar graphs for all metrics. Use the browser's Print function (Ctrl+P) to save as a PDF.
- Encoded CSV — Downloads a numeric CSV file structured to match the standard Excel encoding layout required by the program coordinator.

8. Host Training Establishments (HTE)

The HTE module manages all information related to organizations hosting student interns, including MOA details, verification status, and contact information.

Rica Nicole Napoles	schoolofagriculturalsciences@gmail.com	School of Agricultural Sciences	Advisor	✓	EDIT DELETE

8.1 HTE List — hte_list.php

Access the HTE list from the main navigation bar. Records are organized into the following collapsible sections:

Section	Description
Active	HTEs with a valid and current MOA.
Expired / No Date	HTEs whose MOA has expired or has no set date.
Local	HTEs designated as local institutions with permanent MOA validity.

Within each section, records are further divided into Verified and Unverified sub-tables. Filters by type, school, and name search are available at the top of the page.

Superadmins have access to Edit and Delete buttons for all records. Advisors are provided an Edit button that opens a restricted MOA upload form.

8.2 Adding an HTE — add_hte.php

Both superadmins and advisors may create new HTE records. To add a new HTE, click the + Add New HTE button on the HTE List page and complete the following fields:

- HTE Name
- Representative Name
- Address
- Contact Information
- Associated School
- HTE Type (Local, Private, or Public)
- MOA Start and End Dates
- MOA File (Optional — PDF or image upload)

NOTE *For Local-type HTEs, the MOA dates are automatically set to January 1, 2000 through December 31, 2099. The Active MOA and Verified flags are also forced to enabled.*

8.3 Editing an HTE — [edit_hte.php](#) (Superadmin)

Superadmins may edit all HTE fields including name, representative, address, contact, school, type, MOA dates, active status, verified status, and the MOA file. Uploading a new file replaces the existing one. The verification status is not automatically reset when the superadmin replaces a file.

8.4 Advisor MOA Upload — [edit_hte_advisor.php](#)

Advisors are permitted to upload a new MOA file for HTEs associated with their department. Upon file upload, the HTE's verification status is automatically set to Unverified, flagging the record for superadmin review. The previously stored file is replaced.

9. User Management — users_list.php

This module is accessible exclusively to superadmins and provides full control over user accounts and system activity.

9.1 Your Profile

The Your Profile section at the top of the page displays the currently logged-in superadmin's account information. The following actions are available:

- Edit Profile — Opens a form to update display name and email address.
- Change Password — Requires entry of the current password before a new password can be set.
- My Documents — Lists all HTEs to which the superadmin's students are deployed, with direct links to view associated MOA files and endorsement letters.

9.2 User Account Management

The All Users table lists every registered account in the system. The following actions are available for each advisor account:

Action	Description
Edit	Opens a modal to update the advisor's name, email, and department.
Reset PW	Initiates a two-step password reset process for the selected advisor.
Delete	Permanently removes the advisor's account (password confirmation required).
Approve	Activates a pending advisor account, granting system access.

NOTE The superadmin account row is protected and cannot be edited or deleted through this interface.

9.3 Pending Approvals

Newly registered advisor accounts are placed in a pending state until approved. Click the Pending Approvals link to review and activate these accounts.

9.4 Activity Log

Click the Activity Log button to open a modal displaying a timestamped log of recent system actions, including student additions, edits, deletions, and HTE modifications. This log is useful for auditing changes and identifying data discrepancies.

9.5 Creating New User Accounts

To create a new advisor account, navigate to User Management and select Add New User. Complete the required fields and submit the form. The new account will be active immediately without requiring the approval step.

10. Backup and Restore — restore.php

The Backup and Restore module provides superadmins with tools to safeguard the system database. All actions on this page require password confirmation.

10.1 Accessing the Module

Navigate to User Management and click the Backup & Restore link.

10.2 Creating a Backup

Click the Create New Backup button and confirm with your password. The system will generate a timestamped .sql backup file and store it on the server. This backup can also be downloaded via the InfinityFree control panel if required.

10.3 Restoring from a Backup

Locate the desired backup entry in the list. Click Restore and confirm with your password. The current database will be fully overwritten with the contents of the selected backup. This action is irreversible.

NOTE *Exercise caution when restoring. All data created after the backup's timestamp will be permanently lost.*

10.4 Deleting a Backup

Old or obsolete backup files can be removed by clicking Delete next to the target entry and confirming with your password. Backup files cannot be recovered once deleted.

11. Quick Reference — Pages and Access

Page / Module	Superadmin Access	Advisor Access
index.php — Dashboard	All schools, all advisors	Own department only
add_student.php	All schools and advisors	Own department only
edit_student.php	All fields including requirements	Name, gender, program, dates
view_batch.php	View + upload endorsement letter	View only
missing_requirements.php	All advisors' HTEs	Own HTEs only
stats.php	All schools and programs	Own department only
hte_list.php	Full edit and delete	MOA upload only
add_hte.php	Full form	Full form
edit_hte.php	Full form	Not accessible
edit_hte_advisor.php	Not applicable	MOA upload only
users_list.php	Full access	Not accessible
restore.php	Full access	Not accessible
